TENDER NO.KRA/HQS/NCB-012/2020-2021 – PROVISION OF GENERAL ELECTRICAL SYSTEMS, FIRE DETECTION SYSTEMS AND COMMUNICATION NETWORK INSTALLATIONS AT USHURU PENSION TOWER BUILDING, ELGON ROAD, UPPER HILL, NAIROBI

RE: CLARIFICATION “SET 1”

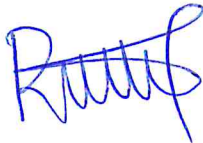

Kenya Revenue Authority wishes to inform prospective bidders of the clarifications highlighted below for the above tender.

S/No	Query	Clarification
1.	<p>On Page 147, first paragraph reads “The servers will be configured for redundancy for the existing system (two servers) as well as failover for the system at Ushuru Pension Plaza”</p> <p>a) Please confirm if its Ushuru Pension Plaza or Ushuru Towers.</p> <p>b) Kindly confirm the current architecture of the two existing servers and the various role played by each. (What is held by each server).</p>	<p>a) The servers will be configured for redundancy for the existing system (two servers) as well as failover for the system at Ushuru Pension Towers and Times Tower</p> <p>b) Server one- Primary server running genetics platform for both access control and CCTV system while server two is the secondary server.</p>
2.	<p>On Page 142, clause 7 on integration “One access card (Global cardholder management) will be used to access Times Tower, CBC, Fortis and Customs House Mombasa.</p> <p>Please confirm if Fortis Tower and Custom House Mombasa are part of this scope.</p>	<p>Ushuru Pension Plaza (Fortis) and Customs House are not in the scope of the project though the proposed platform should have the capability to enable users access KRA offices spanning through the country</p>
3.	<p>On Page 150 on upgrade, “Upgrade the existing two servers to enterprise edition unified platform with one off (perpetual) license” Page 226, clause 1.8, last paragraph “The current platform is Genetec 5.5 Professional - to be upgraded to 5.8 Enterprise edition and the master controller is Synergis cloud link”</p> <p>Please confirm if this will apply for vendors who may propose a different brand from what is existing on site.</p>	<p>Upgrade of the existing platform is not applicable for vendors who will propose a different brand though the proposed brand will be required to integrate with the existing platform for seamless operations as per the specifications</p>

4.	On Page 150, Archiving, “Will have a one off license archiving module and be configured with the NAS box with the existing two (2) servers and one (1) NAS box for archiving” Kindly confirm if the new servers will also utilize the same NAS box.	Yes, the new servers and the existing servers will utilise the same NAS box (2).
